

Patent Application of Terry D. Good for "Trailer Mounted Scaffold Rack, Compartment, and Trough System for Organizing, Transporting, and Storing Construction Scaffolding and Accessories" continued – Page 8

CLAIMS: I claim:

A rack system for organizing, transporting, and storing construction scaffolding, comprising:

- (a) Support arms with retainers to hang scaffold panels on
- (b) Compartments in which to place and retain scaffold planks or platforms
- (c) Troughs and bins to contain bracing and accessories

Whereby said rack system when mounted to a trailer, truck or skid greatly improves safety and eases handling, storing, and transporting of scaffolding and accessories.
